Dear Local Politician

**Re: Addressing Lung Health in and around my school**

As a class/pupil at a Primary School in your region, we live in an area of high COPD (chronic obstructive pulmonary disease) and are concerned for our lung health. We have 3 recommendations we would like to make for you to consider:

Recommendation 1	
Recommendation 2	

Recommendation 3	
------------------	--

We very much appreciate your time in reading our letter and welcome any opportunities to discuss this further.

Sincerely
